Highly versatile and easy to maintain, Welded Mesh is one of the most widely used materials in many industries including energy, transportation, distribution, correctional facilities and military installations.

Safeguards Technology offers a variety of welded mesh sizes which are used for safety barriers, perimeter fencing and aesthetic purposes in commercial, industrial, military and government projects.
FEATURES & BENEFITS

Size:
• 1/2” x 3” 8-gauge for high security needs

General Uses:
• Perimeters
• Bridge overpass fences
• Security fencing
• Catwalks and recreational enclosures
• Storage
• Balustrades

APPLICATION

Safeguards Technology’s Welded Mesh Security Fencing is perfectly suited to industrial, commercial and government applications which demand high security fencing.
